

# INCIDENT RESPONSE SOLUTION

When a security incident or breach occurs, an incorrect response can have a devastating financial or reputational impact on the business. Leverage the technical expertise of C Spire Business' Certified Incident Response Handlers to quickly assess the situation, isolate compromised systems, and remediate the situation. After the incident has been fully addressed, our team can also provide long-term recommendations and solutions to protect against future attacks.

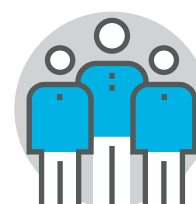

## QUICK FACTS:

In 2016, there were 454 data breaches that exposed nearly 12.7 million records.

In 93% of breaches, it takes attackers minutes or less to compromise systems.

61% of breaches happen to businesses with less than 1,000 employees.
