

## Samsung Galaxy S III 4.1.2 Premium Suite Software Update

Starting July 3, 2013, C Spire Galaxy S III customers will begin receiving a system pop-up notification for a new system update. To install, simply tap **Install**. The C Spire Galaxy S III will reboot and install the software update.

To manually check for the update on a C Spire Galaxy S III, go to the **Settings** app, then select **About device**, and **System updates**. Click **Check now** to check for updates.

C Spire Galaxy S III customers can also update to the latest software by downloading and installing **Samsung Kies** (free) at [www.samsung.com/us/kies/](http://www.samsung.com/us/kies/). The C Spire Galaxy S III will need to be connected to the computer running Samsung Kies using a USB cable.
